SKILLS

- C#
- SQL MS Server
- GIT HUB
- PHP
- Python
- ASP.NET
- REST API
- Visual Studio

SOFT SKILLS

- About me I can say that I am friendly, curious, adaptive. I'd like to work in team, and also, I like to solve tasks and find solutions to problems witch i dont know how to solve. I have goals in life, and to achieve them I strive to develop.

EDUCATION

NUST MISIS, Higher education   2025
Computer Science and Engineering department, Third year student

ABOUT ME

I'm 19, studying programming about 1.5 years, also interested in mathematics and physics. From actual life goals I can single out several: studying programming, as well as improving my body.
I'm studying programming at university, watching different videos, reading documentation and articles on certain topics.
I also used sites like LeetCode(https://leetcode.com/) and CodeWars(https://www.codewars.com/).

EXPERIENCE

In start of 2023, i was on offline bootcamp from school 21. The task was to study Python, write a couple of projects, and work in a team.
Also, upon graduation, I will receive a second diploma from Innopolis University, for completing a one-year course on developing client-server applications

I don't have any experience in commercial development yet, but I aspire to get it.
